<i>B.Tech.</i> (Computer Science & Engg.)	Indian Institute of Information Technology Una, Himachal Pradesh	7.43/10	2021-25
<i>12th</i> (Computer Science & Tech.)	Delhi Public School Gwalior, Madhya Pradesh	92.8%	2020-21

Projects

1. *CryptoHub*

Nov 2023

React.js, Redux toolkit, Ant design, Chart.js, Rpaid API

- Developed a responsive cryptocurrency website using React, ensuring an intuitive and engaging user interface for seamless navigation and efficient state management with Redux Toolkit.
- Designed the user interface using Ant Design, creating a visually cohesive and user-friendly experience and integrated Chart.js to present dynamic and interactive cryptocurrency chart.
- Utilized RapidAPI to fetch data from multiple sources, ensuring real-time and accurate information for a comprehensive view of the cryptocurrency landscape.

2. *Portfolio*

July 2023

HTML, Tailwind CSS

- Designed and developed a modern and responsive portfolio website using HTML and Tailwind CSS, ensuring a visually appealing and consistent experience across various devices and screen sizes.
- Utilized Tailwind CSS to streamline the styling process, creating a visually cohesive and well-designed portfolio that effectively showcases skills, projects, and achievements.
- Wrote clean and organized HTML and CSS code, following best practices and coding standards, to ensure maintainability and facilitate future updates or modifications to the portfolio website.

3. *Asian Sky Shop*

April 2023

ReactJs, ExpressJs, NodeJs, Firebase

- Implemented a secure and user-friendly authentication system, providing seamless login and signup functionalities using React to enhance user engagement and integrated Firebase authentication to securely manage user accounts.
- Developed a personalized user experience based on authentication status, tailoring content and features to registered users, enhancing customer engagement and loyalty.

OTHER PROJECTS: *Eduford Learning, Invoice Generator*

Technical Skills

- Programming Language: C, C++, Python
- Database System: Mysql, MongoDB, Firebase
- Framework: NextJs, TypeScript, NodeJs, ExpressJs, jQuery, Tailwind CSS
- Tools: Latex, Microsoft Office, Visual Studio Code, Git, Github, Postman, DialogFlow
- Web Technology: HTML, CSS, JavaScript, ReactJs
- Operating System: Windows, Linux

Achievements/Awards

- Secured 6th rank out of 400+ participants in *Code Rush Challenge IIITU* conducted by Algo University (2023).
- Secured certification in *Social Summer of Code Season 2* conducted by United Latino Students Association (2023).
- Secured certification in *Retail Tech Cloud Skills boost* held by Google (2023).
- Secured *1st position* in the college sports fest - "YALGAAR" by dominating the badminton arena, highlighting prowess, dedication, and sportsmanship throughout the competition.
